A4 Wi-Fi MULTI-SHEET
SCANNER

SPEEDY AND COMPACT FOR OFFICE OR HOME

- > Speedy and intuitive desktop scanner capable of up to 25 single or double-sided pages
- > Wirelessly scan to your iOS and Android devices
- > Fitted with Fujitsu's 'GI' processing engine for enhanced scanning performance
- > Scan from business cards to A3*
- > Intuitively recommends scan destinations such as scan to searchable PDF, JPEG, Word, Excel, Cloud services and more

*A3 scanning is possible through the use of a bundled carrier sheet.

ScanSnap iX500 is designed with the user in mind offering a complete scan, store, retrieve and distribution solution. A one button approach will convert colour or black and white multi page, double-sided documents into digital PDF or JPG files which you can file, organise, share and email. The ScanSnap iX500 will sit comfortably in any desktop environment allowing you to become paperless and access your digital information anywhere and anytime.

AUTOMATED SCAN FEATURES FOR PERFECT SCANS FIRST TIME EVERY TIME

The ScanSnap iX500 comes with a host of intuitive inbuilt features that help facilitate effortless precision scanning with minimal user intervention. Mixed batches of single and double-sided documents can be scanned without pre-sorting as the ScanSnap iX500 will automatically remove blank pages, pages scanned upside down will be rotated on screen, colour will be detected and scanned accordingly to help file size, batches of mixed size documents from business card to A4 will be scanned and size adjusted without white space around them. Reduced bleed through will optimise the scanned image and any pages fed in at an angle will be automatically straightened.
